Forward Looking Statements

This presentation may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors, and other risks identified in the Company's 10-K for the fiscal year ended January 31, 2025 and other filings made by the Company with the Securities and Exchange Commission.

This press release includes the following non-GAAP measure – adjusted EBITDA, which is not a measure of financial performance under GAAP and should not be considered as an alternative to net income as a measure of financial performance. Adjusted EBITDA represents net income (loss) before interest, taxes, depreciation and amortization adjusted for stock-based compensation. The company believes this non-GAAP measure, when considered together with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to the company's results of operations. However, this non-GAAP measure has significant limitations in that it does not reflect all the costs and other items associated with the operation of the company's business as determined in accordance with GAAP. In addition, the company's non-GAAP measures may be calculated differently and are therefore not comparable to similar measures by other companies. Therefore, investors should consider non-GAAP measures in addition to, and not as a substitute for, or superior to, measures of financial performance in accordance with GAAP. A reconciliation of Adjusted EBITDA to net income, its corresponding GAAP measure, is shown in the Company's earnings press releases.

Mama's Creations Overview

Our Objective: To become the leading national “one-stop-shop” solution for high quality fresh, clean and easy to prepare foods

- **Consumer Preferences are Changing:** Shoppers increasingly prefer ready to eat, prepared food options at grocery and convenience stores with a focus on cleaner, protein-forward items with simple ingredients
- **Family of Brands:** Growing variety of products geared towards today's consumer demands, serving several client needs under a single roof
- **Platform Company Model:** Continued search program to acquire complementary, accretive near-in food product companies to enhance Mama's Creations' product line and national distribution footprint
- **Ongoing Product Innovation:** Vertical integration creates a platform to efficiently develop, market test and launch new products nationally
- **Robust Commodities Strategy:** In-house chicken trimming capabilities + first-ever commodities contracts blunts macro & commodity pressure
- **Targeted Growth Strategy:** Focused on synergy realization and cross selling, goal of being in every part of the deli counter (proteins, salads, grains, etc.) with significantly more SKUs per store

Macro Trends: The Rise of Fresh Food

Grocers investing in grab-n-go food offerings are emerging as a quick service restaurant alternative

- Consumers are increasingly time and budget constrained, with grocery deli sections expanding to become shoppers' meal of choice
- Cost of food away from home at restaurants is rising faster than overall inflation, pushing consumers toward deli fresh alternatives

LTM Ended 12/31/24 Consumer Price Index Inflation¹

- Food at home inflation: 1.8%
 - Food away from home: 3.6%
 - All inflation: 2.9%
- Grocers are capitalizing on the opportunity by investing heavily in attractive deli displays, but need prepared food options that maximize their limited labor force

Mama's Creations is at the intersection of this trend:

- Offering affordable restaurant GRANDMA-quality food
- Drives incremental trips & larger baskets for grocers with minimal on-site preparation required

The Mama's Creations Origin Story

Building upon MamaMancini's strong legacy in Italian-inspired foods

"Every Sunday I would wake to the amazing aroma of my Grandmother frying meatballs. I call this a 'Scented Memory.'"

In 1921, Daniel Mancini's grandmother Anna Mancini made her way to America through Ellis Island with his grandfather, Nicola Mancini. They settled in Bay Ridge, Brooklyn and raised five children. Shortly after Daniel Mancini was born, he was in the kitchen cooking alongside his grandmother. None of the recipes were written down, just stored in her heart.

"I chose my Grandmothers Meatballs and Slow Cooked Italian Sauce as the first recipe we would bring to your table. We prepare this dish the exact way she did so many years ago. The meatballs are made from 100% beef, whole fresh eggs, Romano cheese, onion, parsley, a pinch of salt and pepper and the exact amount of bread crumbs. They are formed by hand just like Anna did and lightly browned. This is the only way to prepare authentic old world meatballs and sauce. Gently stirring every 20 minutes guarantees perfect meatballs every time. There are no shortcuts."

— Daniel Mancini

Achieving Best-in-Class Facilities

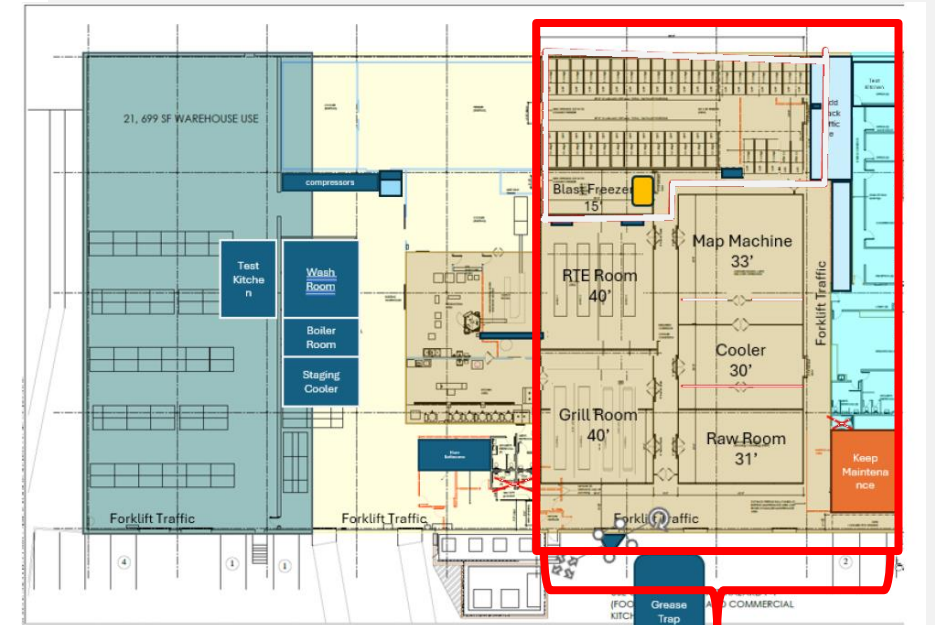

Farmingdale, NY

- Completion of summer 2024 construction doubles grilled chicken capacity and increases usable space by 10,000 sq. ft.
- First ever chicken contracts at attractive rates to provide greater visibility into future input pricing and reduces margin fluctuations
- Targeting to trim and tumble half of chicken production in-house by end of Q2
- Improving people and process capabilities (ex: staffing model to maximize throughput while minimizing overtime)
- Utilizing new demand vs. supply modeling tool to maximize grill throughput and customer delivery
- Disciplined performance management – KPI based, “balanced” scorecard

East Rutherford, NJ

- Lesson learned: Strategic investments in automation to start, stay, end on track via world class project mgmt. governance while minimizing operations impact:
 - Facility build-out
 - Slicing and dicing
 - Smart belt
 - Corporate Reliability
 - MAP technology
 - Pallet Wrapping
 - X-Ray
 - Opportunistic Buying
- Expanding existing 24K sq. ft. facility into adjacent space of our building to grow usable space by nearly 100% (+19,000 sq. ft.) with no expected impact on existing operations
- Executing full network analysis to optimize plant assets and customer sourcing / delivery. Expansion space, plus existing ER facility, will be optimized to enable overall network cost and service

+19,000 sq. ft.

Balancing Organic & Inorganic Growth

Vision of Mama's Creations as a national Deli Solutions company

- Serving the full demands of deli & fresh departments via our suite of brands as a "One Stop Shop"

Tremendous further distribution and velocity opportunities

- Under 20% penetrated today with upside to items carried
- Targeted programming will accelerate current velocities

Seeking accretive acquisitions of near-peer firms at attractive multiples with complementary capabilities to Company's existing network

- Goal of aggressive synergy realization and rapid integration of acquisitions leveraging existing distribution network to accelerate growth trajectory

Acquisition Case Study: T&L Creative Salads

Acquired December 2021 for \$14 million (\$14M included both T&L and Olive Branch)

- Entered new salads category with T&L's 300+ item product line
- Strengthened position in proteins, particularly with chicken
- T&L facility nearly doubled production capacity & flexibility
- Successfully sold in T&L products to existing Mama's Customers
- Already reducing raw materials & packaging costs
- Back office and headquarters synergies (starting with Finance)

Our 2030 Vision:

We Aspire to Become the Next \$1B Deli Provider

01

Legacy MamaMancini's

Founded upon the original Mancini meatball recipe, products offered nationwide.

02

Breadth & Depth of Distribution

MamaMancini's and T&L Creative Salads are still underpenetrated in existing sales channels, under-SKU'd in existing stores and have the potential to enter new channels.

03

Consumer-Driven Product Innovation

As we become even more consumer-focused, understand consumers' unmet Deli needs and innovate to address them.

04

Pursue Accretive, Near-In Acquisitions

Regularly identify and integrate major acquisitions in new categories, capitalizing on the highly fragmented nature of the fresh prepared foods space.

05

Becoming the One Stop Shop Deli Solution

The Company has the potential to achieve \$1B in sales through a combination of accretive acquisitions of near-in private companies and organic growth spurred by cross-selling and new product innovation.

Financial Highlights

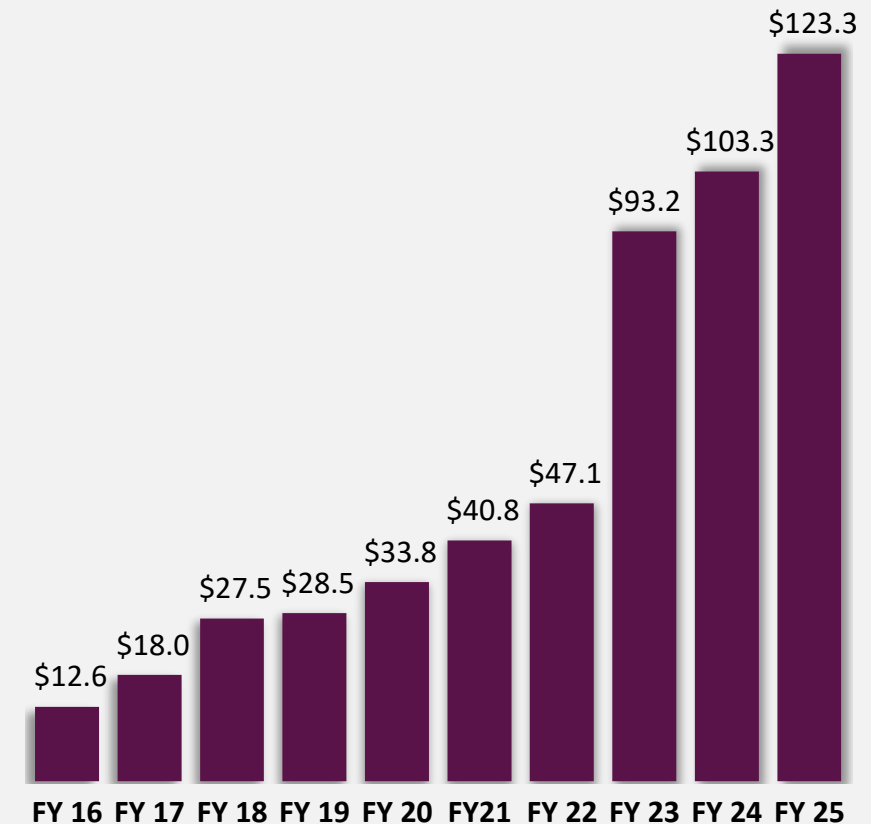

- Normalized gross margins are currently in the upper 20% range with the potential to steadily move into the low 30% range over the long-term
- Expect to achieve adj. EBITDA margins in the teens percentage range over the medium- to long-term.
- History of profitability and strong revenue growth; cash and equity to be used for potential M&A rather than to fund day-to-day operations
- Methodically paying down debt balance using cash flows from operations
